

How to access TV subtitles with Swift TV

Scan the QR code for more user guides.

swift

While watching TV, press the OK button on your Swift remote to bring up menu. You'll see the Closed Captions option in the bottom right [CC]

If the [CC] icon is dark blue, the subtitles are off. Use your remote arrow keys and OK key to select the [CC] icon, changing it to green.

Once the [CC] icon is green, the subtitles will appear. The subtitles will stay on when you change channels and display on any program with available captions.
