

How to pair a Replacement Swift TV Remote.

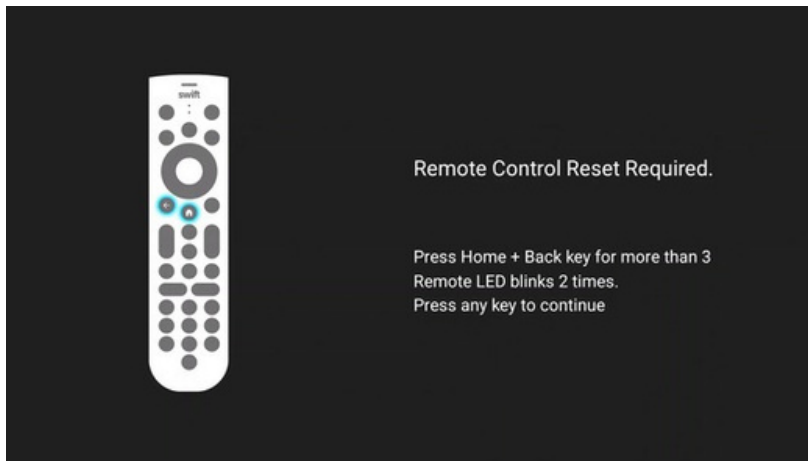

Scan the QR code for more user guides.

swift

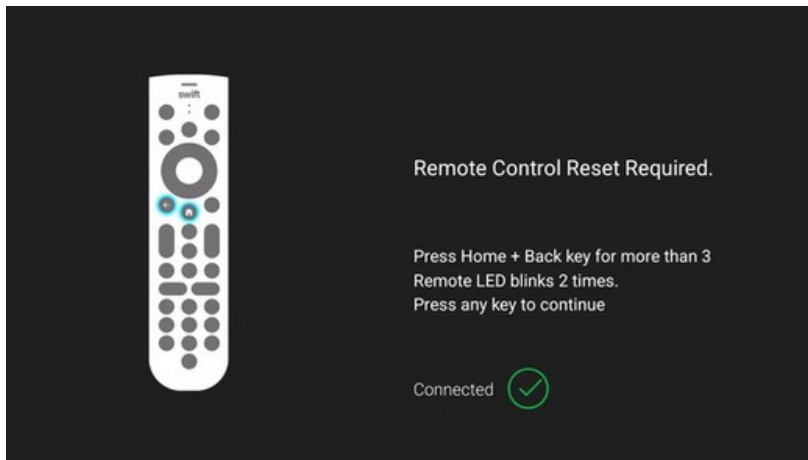

On the side of the Swift TV device, there is a recessed pairing button. Using a small pointed object, press and hold the button for 5-6 seconds.

The Swift TV device will present the pairing screen as shown below.

Press the Home (House) + Back (arrow) for more than 3 secs. The Remote LED will flash red multiple times.

On the TV screen you will see **Connected** with a green tick to indicate the remote has been paired successfully, as shown above. Press any key to continue.
